# Starting Aurasma

For the first time use you will get a 'Welcome To Aurasma tutorial', swipe left to proceed to the sign-in page and select '>>skip'.

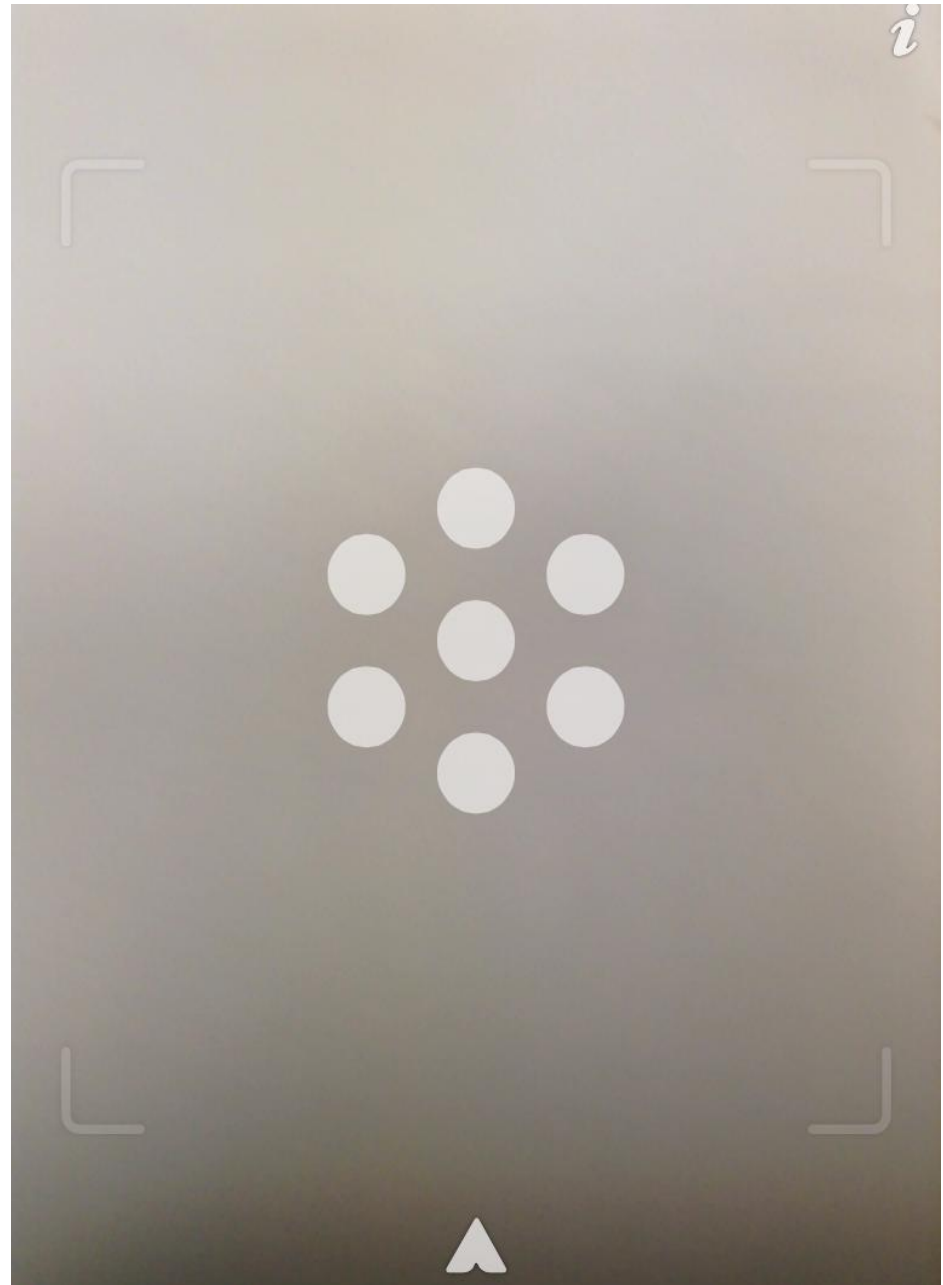

No need to log in or create an account at this stage.

# Viewfinder

The App starts on the 'viewfinder' page – with pulsating white dots on the screen.

Tap on the  at the bottom of the screen to get to the set of available auras and the menu icons at the base of the screen.

# Menu Page

Use the search icon:

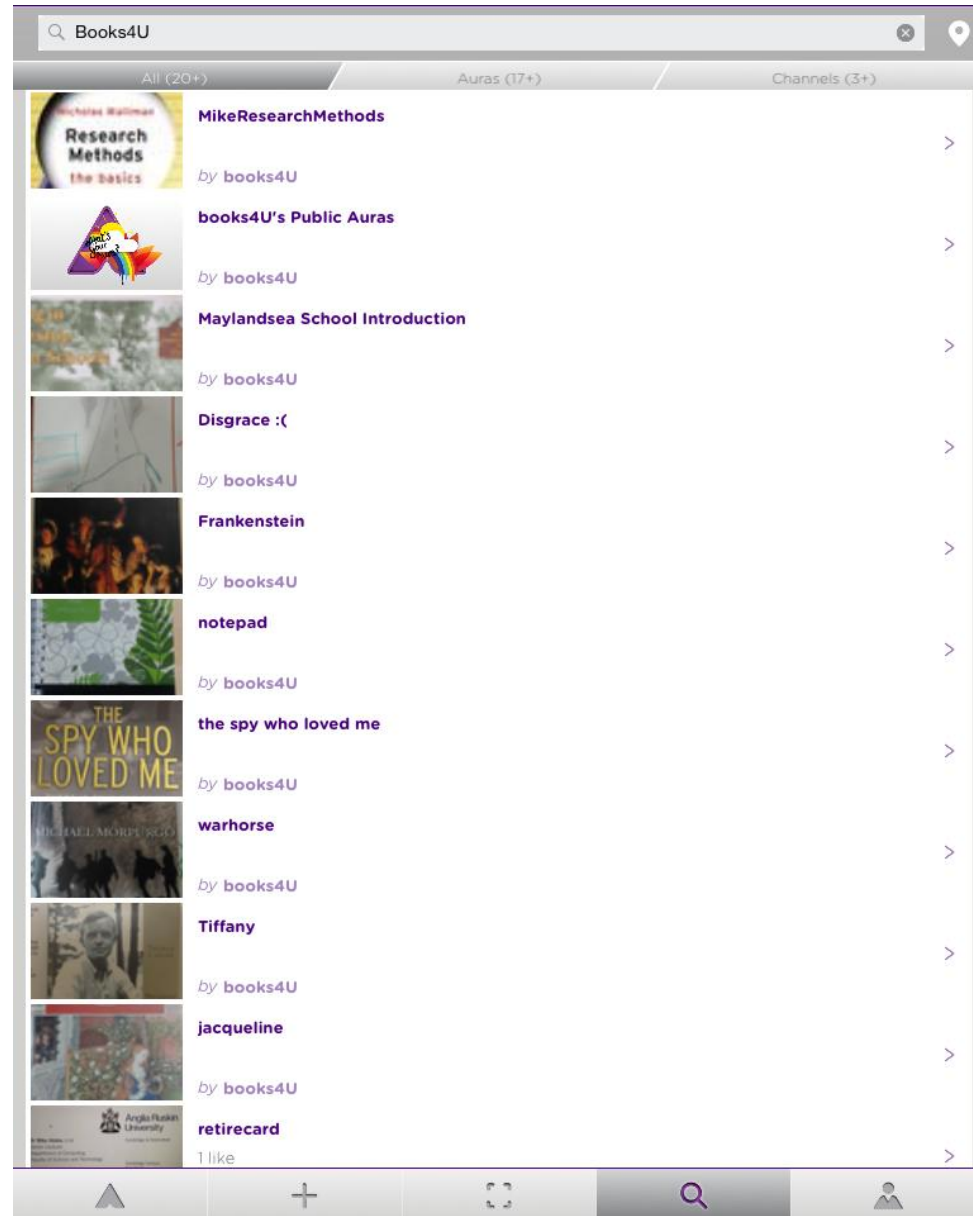

to get to the search page. look for 'books4U', from the list of results, 'select the books4U Public Auras:

# Search

Type in 'books4U', in the text box.

From the list of results, 'select the books4U Public Auras'.

# Follow

Click on the 'Follow' box in the top right hand corner – this should change to 'following'.

You are now ready to select the viewfinder icon: [ ] and aim your camera at a trigger image, once it is recognised the media for the aura will play.
